Special Offer

PONDURANCE

ProWriters
Professional & Management Liability Insurance

ANNOUNCEMENT

Pondurance and ProWriters have partnered to provide you cybersecurity benefits for one-year at no cost to you. This benefit is provided just for being a ProWriters client with an active policy. Pondurance is a leader in cybersecurity delivering world-class managed detection and response (MDR) services and 24/7/365 real-time cyber incident response (IR). This offer is exclusive for existing and new policyholders of participating providers secured through ProWriters with policies written and offers registered by 06/01/2021.

Pondurance gives industries facing today's most pressing and dynamic cybersecurity challenges access to cybersecurity experts that will continuously hunt, investigate, validate and contain threats so your own team can focus on what matters most. Our experts include seasoned security operations analysts, digital forensics and incident response professionals, as well as compliance and security strategists. They provide always-on services to customers seeking broader visibility, faster response and containment, and more unified risk management for organizations.

INCLUDED IN YOUR OFFER:

One-Year IR Retainer from Pondurance

- Bronze incident response plan as well as one-year free bronze incident response retainer
- Access to our 24/7/365 IR hotline
  - Initial response time of less than two hours
  - Analysis of the incident in less than eight hours
  - In-person response in 48 hours
- Contractual relationship with Pondurance and basic Rules of Engagement
- Collection of your technical landscape as well as discussion of current incident response plan to get Pondurance's team prepared in case there is an incident
- 25 total hours of service are included with this free offer

One-Year of MDR Services from Pondurance for Up to Ten Endpoints

Recognized by Gartner, Pondurance MDR is the proactive security service backed by authentic human intelligence.

- Pondurance will provide an onboard assessment to recommend a deployment model that will provide the best risk reduction for the client
- Pondurance will deploy up to ten Endpoint Detection and Response (EDR) agents on critical assets within the customer environment (i.e. executive devices or high risk assets, Active Directory, etc.)
- 24/7 monitoring and threat hunting from multiple SOC locations combining artificial intelligence (AI) with Pondurance's expert analysts
- Closed-loop incident response with instant triage and comprehensive forensic analysis
- Coverage includes a maximum of ten endpoints
